Specialty Formulas Guide

Behind every drop of milk.. A story of commitment to a healthy life.

Our journey wasn't just a fleeting investment; it was a response to a call that combined science and motherhood. In 2020, Kulalac emerged as the first and only destination in Turkey to adopt advanced spray-drying technology.

Our journey is more than just a few years; it's an extension of a passion and knowledge that began in France in 2014. We've transformed our ambition into a reality that we create locally today to international standards, believing that achieving food security with the highest purity is the cornerstone of a safe future for our children.

We don't just create food; We engineer the beginnings of life.

Science-backed care, where clinical research meets the purest natural ingredients.

This is the promise our laboratories deliver daily by combining the latest medical knowledge with organic and natural ingredients. Through the strict application of European standards, we offer expertly formulated foods that mimic breast milk in its most perfect form.

Every step in our laboratories is carefully considered to ensure that the precise physiological needs of infants are met. We don't just provide nutrition; we ensure balanced growth, both mental and physical, supported by consultations from leading medical institutions to guarantee absolute purity and easy digestibility.

From the heart of the trusted farms to the moment the package reaches the mother's hand, every stage of production is subject to rigorous quality control that allows no compromises. We continuously strive to localize knowledge and technology to build a research base that places us at the forefront of global laboratories.

This deep commitment to purity, quality, and the safety of generations did not come from nowhere, but is documented and certified by the **highest international quality certificates** that crown our journey and confirm our complete transparency:

1

Infant formula for infants during the first 6 months of life, derived from cow's milk. The formula is fortified with DHA, ARA, nucleotides, and GOS & FOS fibres, making it very close in composition to breast milk, which helps the infants grow and develop properly, including the brain and nervous system.

Contains:

- ✔ Long-chain fatty acids **DHA & ARA**, which ensure healthy development of the nervous system and reduce inflammation in the digestive tract.
- ✔ A formula fortified with lutein and carotenoids in quantities similar to those found in breast milk, which promotes the development of the visual system.
- ✔ Nucleotides to promote healthy development of the intestinal tract and intestinal immunity, thus maximizing the absorption of nutrients.
- ✔ Probiotic Bifidobacterium lactis to improve the gut microbiota and promote digestive health.
- ✔ Prebiotic fiber (**GOS & FOS**) to promote the growth of Bifidobacterium lactis.
- ✔ Palm oil free.

Stage 1 Formula

PALM OIL FREE
خالي من زيت النخيل

GMO FREE
خالي من المكونات المعدلة وراثيا

Follow-UP 2 Formula

2

DreamLac Follow-UP Formula, designed for ages 6-12 months, is derived from cow's milk with a lower fat content and is fortified with lutein, carotenes and nucleotides to be close to the composition of breast milk.

Contains:

- ✓ Long-chain fatty acids **DHA & ARA**, which ensure healthy development of the nervous system and reduce inflammation in the digestive tract.
- ✓ A formula fortified with lutein and carotenoids in quantities similar to those found in breast milk, which promotes the development of the visual system.
- ✓ Nucleotides to promote healthy development of the intestinal tract and intestinal immunity, thus maximizing the absorption of nutrients.
- ✓ Probiotic *Bifidobacterium lactis* to improve the gut microbiota and promote digestive health.
- ✓ Prebiotic fiber (**GOS & FOS**) to promote the growth of *Bifidobacterium lactis*.
- ✓ Palm oil free.

PALM OIL FREE
خالي من زيت النخيل

GMO FREE
خالي من المكونات المعدلة وراثياً

3

Dreamlac Follow-On Infant Formula is given to infants aged 12-36 months and is derived from cow's milk. This unique formula is high in protein and fortified with lutein, carotenoids, and nucleotides, providing essential complementary nutrition for growing infants.

Contains:

- ✔ Long-chain fatty acids **DHA & ARA**, which ensure healthy development of the nervous system and reduce inflammation in the digestive tract.
- ✔ A formula fortified with lutein and carotenoids in quantities similar to those found in breast milk, which promotes the development of the visual system.
- ✔ Nucleotides to promote healthy development of the intestinal tract and intestinal immunity, thus maximizing the absorption of nutrients.
- ✔ Probiotic Bifidobacterium lactis to improve the gut microbiota and promote digestive health.
- ✔ Prebiotic fiber (**GOS & FOS**) to promote the growth of Bifidobacterium lactis.
- ✔ Palm oil free.

Follow-UP 3 Formula

PALM OIL FREE
خالي من زيت النخيل

GMO FREE
خالي من المكونات المعدلة وراثيا

Follow-UP 4 Formula

4

Dreamlac Follow-On Infant Formula is given to infants aged 18-36 months and is derived from cow's milk. This unique formula is high in protein and fortified with lutein, carotenoids, and nucleotides, providing essential complementary nutrition for growing infants.

Contains:

- ✓ Long-chain fatty acids **DHA & ARA**, which ensure healthy development of the nervous system and reduce inflammation in the digestive tract.
- ✓ A formula fortified with lutein and carotenoids in quantities similar to those found in breast milk, which promotes the development of the visual system.
- ✓ Nucleotides to promote healthy development of the intestinal tract and intestinal immunity, thus maximizing the absorption of nutrients.
- ✓ Probiotic *Bifidobacterium lactis* to improve the gut microbiota and promote digestive health.
- ✓ Prebiotic fiber (**GOS & FOS**) to promote the growth of *Bifidobacterium lactis*.
- ✓ Palm oil free.

خالي من زيت النخيل

GMO FREE
خالي من المكونات المعدلة وراثيا

Anti-Reflux Formula AR

PALM OIL FREE
خالي من زيت النخيل

GMO FREE
خالي من المكونات المعدلة وراثيا

AR

A nutritional formula for medical use, A cow's milk-based formula fortified with **long-chain fatty acids (DHA)**, **lutein**, and **galacto-oligosaccharide (GOS) fiber** to ensure healthy and balanced growth in infants. Specifically formulated for infants experiencing gastroesophageal reflux during the first year of life (0-12 months).

Contains:

- Docosahexaenoic acid (DHA), an omega-3 fatty acid essential for the development of the eyes, brain, and nervous system.
- Galacto-oligosaccharide (GOS) fiber, which selectively promotes the growth of beneficial bacteria in the infant's digestive tract.
- Lutein, found in breast milk, which helps improve eye health.
- Locust Bean Gum Powder, a powerful stabilizing agent that helps alleviate gastroesophageal reflux.
- Palm oil-free.

PRE

A medically formulated nutritional formula for premature and low-birth-weight infants, based on cow's milk and fortified with long-chain fatty acids (DHA & ARA), carotenoids, lutein, and nucleotides (NTs) to ensure healthy and balanced growth in premature babies.

Contains:

- ✎ ARA (arachidonic acid), an omega-6 fatty acid essential for brain development.
- ✎ Docosahexaenoic acid (DHA), an omega-3 fatty acid essential for the development of the eyes, brain, and nervous system.
- ✎ Medium-chain triglycerides (MCTs) to support balanced growth in premature infants.
- ✎ Taurine, an amino acid found in high concentrations in bile salts, which plays a vital role in fat metabolism.
- ✎ Nucleotides to boost immunity and accelerate energy transfer, aiding the body in metabolic processes.
- ✎ Lutein, found in breast milk, which helps improve eye health.
- ✎ Bifidobacterium lactis, a top probiotic for improving the health and integrity of children's immune systems.
- ✎ Palm oil free.

Premature Infant Formula PRE

PALM OIL FREE
خالي من زيت النخيل

خالي من المكونات المعدلة وراثيا

Rice Protein Formula RPH

PALM OIL FREE
خالي من زيت النخيل

GMO FREE
خالي من المكونات المعدلة وراثياً

RPH

A nutritional formula based on hydrolyzed rice protein, intended for medical use. For infants with **allergies to animal protein in general, and cow's protein especially.**

A plant-based formula free of any ingredients of animal origin, including lactose.

Contains:

- Hydrolyzed rice protein, with peptides >1000 Daltons comprising %80.
- Medium-chain triglycerides (MCTs).
- Docosahexaenoic acid (DHA), an omega-3 fatty acid essential for the development of the eyes, brain, and nervous system.
- Vitamins, minerals, and amino acids essential for the balanced growth of the child.
- Palm oil free.

Dreamlac

The Kulalac logo consists of the word "KULALAC" in white, uppercase, sans-serif font, followed by a small green leaf icon. The logo is set against a dark blue rectangular background.

KULALAC

At Kulalac, we understand that motherhood is the most profound and delicate experience. Therefore, our mission doesn't end with laboratory production; it begins there, entering every home with peace of mind and confidence.

Our commitment to you and your child is an enduring pledge to provide the purest of nature's bounty, supported by the most precise scientific advancements.

We are here to ensure that every step in your child's development is built on a solid, healthy foundation, because the first moments of life are uncompromising.
